

IdoferaNall — Storefront Help Guide

This guide is for **customers shopping on the IdoferaNall storefront**. It explains how to browse, add items to your cart, check out, pay, and track your order. You can hand it to a customer as-is.

Staff running the shop should read [docs/user-help.md](#) instead.

Screenshots below are from a demo storefront; product names and prices are examples.

1. Finding your way around

The storefront is a shop you can browse like any online store. Every product you can buy is **Active and in stock** — out-of-stock items may still be shown, but they cannot be purchased.

The IdoferaNall home page on a phone

The main areas:

- **Home** — featured items, categories, and rails such as flash sales.
- **Categories** — the category bar on desktop, or the menu on a phone.
- **Search** — top of every page; type to see matches.
- **Cart** — the basket icon; opens your cart drawer.
- **Account** — takes you to order tracking.

On a phone, the bottom bar gives you **Home**, **Categories**, **Cart**, and **Account**.

Browsing and searching

Search results with a wholesale tier

- Type in the search box to see results update as you go. Search matches products, brands and categories, and is forgiving of minor spacing and typos.
- Sort results with the **Sort** control (for example, by relevance or price).
- Some products advertise a **wholesale tier**, shown as a chip like "N130 each at 25+". Buying that quantity automatically charges the lower per-unit price.
- Open any product to see its full description, price, availability, and any tier, then **Add to cart**.

2. Your cart

Open the **cart** to review your items and totals, then continue to checkout, where the **Order Summary** shows the full breakdown.

Checkout with the order summary

The order summary may offer ways to reach a better price:

- A per-item prompt such as "Add N more → pay X each", with the amount you would save.

- A whole-cart banner such as "Add ₦X more → wholesale" with a one-tap **Unlock** that jumps the line up to the threshold.

Lines that have earned a discount are tagged with a **Wholesale** badge. These offers only appear when there is enough stock to actually reach the tier — you are never promised a price the shop cannot fulfil.

When you are ready, continue to checkout.

3. Checkout

The checkout page collects your details and delivery choice. This is also where the **Order Summary** totals your basket and any wholesale savings.

Checkout

1. **Review** your items and totals.
2. Enter your **Full name**, **Phone number**, and **Email**. Your email is used for order confirmation and status updates.
3. Choose a **Delivery zone**:
 - **Pickup** — no delivery fee; you collect from the shop.
 - **Uyo central** and **Uyo outer areas** — fixed fees shown at checkout.
 - **Other locations** — a staff member confirms the fee before you pay.
4. Enter the **delivery address**. For pickup this becomes an optional pickup note.
5. Choose how you will pay:
 - **Pay on pickup**, or
 - **Bank transfer** — your order instructions show the bank details.
6. Optionally tick **Remember my details on this device** so you do not retype them next time.
7. Press **Place Order**.

After ordering you land on a confirmation screen showing your **order number** with a **Copy order number** button — keep that number to track your order.

4. Tracking your order

Open **Track My Orders** (from the confirmation screen, the **Track Order** link in the footer, or the **Account** tab on a phone).

Track My Orders

Enter:

- your **Order number**, and
- the **phone number you used at checkout**.

You must provide **both** — this is a privacy control, not a full login, so nobody else can look up your order with just one detail. The results show your order's current status and, where available, when it was last updated.

What the statuses mean

Status	What it means
Pending review	We have your order and are checking it
Confirmed	Accepted; preparation will start
Processing	Being prepared
Packed	Packed and ready
Ready for pickup	Waiting for you at the shop (pickup orders)
Out for delivery	On the way to you (delivery orders)
Completed	Finished — collected or delivered
Cancelled	Cancelled; if you paid, a refund is arranged
Refunded	Money returned

5. Paying

Pay on pickup

Choose this if you would rather pay when you collect. Bring your order number.

Bank transfer

1. Your order shows the bank details to use.

2. Transfer the **exact total** and use a **unique reference**.
3. Tell the shop if you have not received a confirmation — staff match your transfer by reference and phone number.

Do not pay again if you are unsure. A cancelled order must never be paid a second time. Contact the shop first and let them confirm what happened.

6. Delivery and pickup

- **Pickup** collects from the shop address and hours shown on the site.
- **Uyo central** and **Uyo outer areas** have fixed delivery fees shown at checkout.
- **Other locations** are quoted by staff before you pay, because the fee depends on where you are.

If an address cannot be served, the shop will contact you — delivery orders are only confirmed once staff have verified the address is serviceable.

7. Questions customers often ask

"How do I know my order went through?" You get a confirmation screen with an order number. If you gave an email, you also receive order updates there.

"Where is my order?" Use **Track My Orders** with your order number and checkout phone number. Staff can also look it up for you.

"Can I buy wholesale / in bulk?" Yes — many products have a wholesale tier. Add enough of the item and the lower per-unit price applies automatically; the cart will prompt you when you are close.

"Why is an item showing but I cannot buy it?" It is out of stock or has no price set. The storefront keeps such products visible, but purchasing is only possible when there is stock and a valid price.

"The page looks empty." Refresh once. If it still does not load, check your connection and try again.

8. Where to get help

- **Track Order** in the footer, or the **Account** tab on a phone, for order status.
- The contact phone and shop details shown in the site footer.
- If you are the shop operator, see [docs/user-help.md](#) and [docs/mall-operations.md](#).
